Morocco.-Intelligence was daily expected of our stock : rom Morocco, where the Spanish and French Generals seemed likely to produce something more than a mere demonstration. The Moors were expected to make an attack on Mosilla, having already cut off supplies.

A Steam Loom -A valuable invention has been made in Belgium. It is destined to effect a great reform in the manufacture of linen cloths as the steam loom has been made in that of woollens. It is nothing less than a steam loom for linen fabrics. All the ingenuity and perseverance of manufacturers have been tested to invent a machine of this kind; but the fabrics have been uniformly so poor, that the machines have been thrown away, and manual labor again resorted to. The difficulty has been removed by the scientific skill of a Belgian engineer. A model of his machine, with specimens of the fabrics, has been exposed at the fair at Ghent. The cloths are said to rival in firmness, fineness, and smoothness, the best of those made by hand.

Counterfeiters Arrested .- A man called Dr Wyatt has been arrested at Spencer, O. who is known as the head of an extensive band of counterfeiters. Over \$60,000 in counterfeit money and spurious coin were found in his dwelling, and in a cache in the woods adjoining, plates, dies, and im plements for strik-ing bills and making spurious coin were dis-covered and seized. This establishment has been maintained for years.

Diseases have been cured, such as are not furnished in the records of time past; and what it has already done for the thousands who have used it, it is capable of doing for the millions still suffering and struggling with disease. It purifies, cleanses, and strengthens the fountain springs of life, and infuses new vigor throughout the whole animal frame.

The diseases for which this article is recommended are those to which it is known from personal experience to be adapted; and those apparently removed beyond the sphere of its action have yielded to its influence. The catalogue of complaints might be greatly extended to which the Sarsaparilla is adapted, but experience proves its

New York, Feb. 17, 1848.

Messrs. Sanns:—Having suffered many years with a disease of my throat, affecting the larynx, during which time I was treated by the most distinguished physicians in Europe and the United States, without receiving any permanent benefit, but all the time my general health and strength declining, and the disease making fearful progress; caustic applications were used, and whatever else was thought most efficient for producing a cure; but I am confident the deplorable situation I was in, the laryngitis being accompanied with phthisis and great difficulty in breathing, would soon have terminated my life, had I not obtained relief through the medium of your valuable. able Sarsaparilla. I must say, gentlemen, when I commenced using the Sarsaparilla I did not place much confidence in its virtues; and this will not surprise you, when you are informed I had tried more than fifty different remedies during the past four years, without any success; but after taking your Sarsaparilla a few weeks, I was obliged at last to yield to evidence. This marvellous specific has not only relieved, but cu'ed me; and I therefore think it my duty, gentlemen, for the benefit of suffering humanity, to give you this attestation of my cure. Yours very truly.

CAT "TROUS ULCER PERMANENTLY CURED. LET THE FA'. SPEAK FOR THEMSELVES.—The following striking, and, as will be seen, permanent cure of an inveterate Cancer, is only another link in the great chain of testimony to its merits. Let the afflicted read and be convinced. What it has

Messrs. A. B. & D. Sands:—Gentlemen—In the year 1842 I was attacked with a cancer in my neck, which soon extended its ravages over the side of my face, eating the flesh, and leaving the cords of my neck bare, discharging very freely, causing inthe flesh, and leaving the cords of my neck bare, discharging very freely, causing intense pain and suffering, depriving me of rest at night and comfort by day, destroying my appetite, and reducing me almost to the gates of death. I was attended by the first physicians in the state, who prescribed for me, and did all that skill and talent could effect, but during all the time I continued to grow worse under their care. In the Spring of 1844 I chanced to hear of the cures performed by your Sarsaparilla, and determined to try it. I had not used over two bottles before I felt its effects on my system most sensibly. My ampetite was soon restored by the strength was increasing system most sensibly. My appetite was soon restored, my strength was increasing, the discharge from the cancer decreased, and I soon began to perceive that the flesh the discharge from the cancer decreased, and I soon began to perceive that the flesh was healing. I continued its use according to directions, and also continued to grow better and better from day to day, until I have been fully and wholly cured by its use. It is now two years since I was cured, and I have remained perfectly well up to this day. I have delayed giving you this certificate, that I might ascertain whether the disease would reappear; but I am happy and most thankful to again repeat that the cure is a perfect one, and effected wholly by the use of your Sarsaparilla. The scars still remain; and all who know me, and many of the citizens of Stamford, can testify soft remain; and an wao show me, and many of the critizens of Stamlord, can testify to the severity of my case and my sufferings, and the health-restoring power of your Sarsaparilla. I can with unhesitating confidence recommend its use to every sufferer afflicted with similar complaints. After experiencing what I have from its effects, I can say to one and all, "Hesitate and doubt no longer, but secure to yourselves the health-giving virtue this medicine can alone bestow."

Most gratefully I am, and shall always remain, your friend, ISAAC STEVENS.

VALUABLE RESIDENCE AND PLANTATION FOR SALE.

THE subscriber will offer for sale, on the premises, on the 4th day of December next, the Plantation known as Strawberry Hill, or Porter's Neck, on Carver's creek, in Bladen county, the late residence of Dr. William S. Andres, deceased. There are on the place a new, handsome and commodious dwelling-house, and all necessary out-houses, entirely new. The tract contains 640 acres, about one-half of which is Cape Fear low land, believed to be equal in all respects to any on the River. The uncleared land is well timbered; the lowland with oak, ash, &c., the upland with oak and pine. The fences are in good repair. There are on the place fine young orchards of choice varieties of peach and apple trees, and the whole is in a state of high improvement. Mr. Charles R. Council, who knows all about the place, (having been Dr. Andres' overseer for several years,) and who is there at all times, will take the inseasible perspiration; relaxes all strictures and tight pleasure in showing it to any person who wishes

to look at it. ALSO, a tract of 25 acres, near the Mineral Spring on Carver's branch, about 3 miles from the above mentioned tract, very desirable as a summer

THE ORIGINAL DISCOVERER OF THE Genuine Townsend Sarsaparilla. Old Dr. Townsend is now about 70 years of age, and has long been known as the AUTHOR and DISCOVERER of the GENUINE ORIGINAL "TOWNSEND SAR-SAPARILLA." Being poor, he was compelled to limit in manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death, pro-

Knowing, many years ago, that he had, by his skill science and experience, devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice, when its inestimable virtues would be known and appreciated. This time has come, the means are supplied; this GRAND AND UNEQUALLED PREPARATION is meanufactured on the largest scale, and to called is manufactured on the largest scale, and is called for throughout the length and breadth of the land, especially as it is found incapable of degeneration or deterioration. Unlike young S. P. Townsend's, it improves with age, and never changes, but for the better: because it is prepared on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla. The Sarsaparilla root, it is couragement heretofore extended to her by the well known to medical men, contains many medicinal properties, and some properties which are inert or useless, and others, which if retained in preparing it for use, produce fermentation and acid, which is injurious to the system. Some of the properties of Sarsaparilla are so velatile, that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover, these colatile principles, which fly off in vapor, or as an exhalation, under heat, are the very essential medical properties of the root, which sive to it all its value.

Nervous diseases and debility,

The medicine you pre-eminently need? But can any of these things be said of S. P. Townsend's aferior article? This young man's liquid is not to be COMPARED WITH THE OLD DR'S, because of one GRAND FACT, that the one is INCAPA BLE of DETERIORATION, and

while the other DOES; souring, fermenting, and blewing the bettles containing it into fragments; the sour, acid liquid exploding, and damaging other goods! Must not this horrible compound be poisonous to the system? - What! put acid into a system already diseased with acid! What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs, what mischiefs it produces ? flatulence, heartburn, palaitation of the heart, liver complaint, diarrhœa, dysentery, colic, and corruption of the blood? What is Scrofula but an acid humor in the body? What sours, and thus spoils all the fluids of the body, more or less. What causes Rheumatism but a sour or acid fluid which insinuates itself between the joints and elsewhere, irritating and inflaming the delicate tissues upon which it

I remained in this condition, with little or no change, until I fairly despaired of getting about again this season. with the aid of crutches. Since then, I have walked in the street: have gone alone from 36 Spruce street to the Park; thence to Lovejoy's Hotel and back. I have been to 85 Nassau-street two different times, and am now frequently visiting my neighbors. During all this time, I have taken but two bettles of Old Dr. Townsend's Sarasparilla, Oct. 4: I procured another bottle to-day (5th Oct.) I walked twice across the floor without the aid of crutches. I have also nearly recovered from obstruction of water, which gave me great distress. The pain in my back has likewise left me. I and my family have no earthly reason to ascribe my recovery to any other cause but to OLD DR. JACOB TOWNSEND'S SARSAPARILLAN ALEX. WELSH, 36 Spruce at.

P.S.—Several able physicians despaired of my ever walk ing or even raising myself from my bed again.
